For maximum abrasion.

The Super Heavy Cut Compound 300 improved Formulation is the ultimate high-performance cutting compound for modern automotive clear coats with maximum sanding effect featuring the latest technology. The improved high-performance polish removes sanding marks in the shortest possible time without damaging the surface and contaminating surrounding areas.

It is ideal for professional car detailing. The Super Heavy Cut Compound 300 improved Formulation with its premium polishing materials is easy to use and pleasant to handle.

- Advantages:**
- Extremely high abrasion
 - No solvent smell
 - Without a hazard label
 - Easy to handle
 - No dust formation
 - More pleasant to work with
 - Extremely fast removal of sanding marks
 - Silicone-free
