

Medium Cut Polish 2400 - Liquid+ Medium Polish -

Product Description

Menzerna Medium Cut Polish 2400 (MCP 2400) Liquid+ is a highly effective polish for automotive clear coats. It also works well for dry coating systems in the medium polish process with outstanding performance in terms of gloss and the removal of sanding marks.

General information: Product Group: Medium Cut Category: Alternative Cut: 5 Gloss: 8 Application: Detailing/ Paint Shops Storage: 5-30°C, avoid frost and direct sunlight Colour: White Volumes: 250 ml: 22923.281.001 1 L: 22923.261.001	Chemical information: Density: 1,1 kg/l Viscosity: 6-11 Pas	
	Technical information: Maximum abrasion: P 3000 Polishing tools: Medium Cut Foam Pad Speed recommendation for hard paints: Rotary: 1,250 rpm Orbital: medium speed range (also manual usage with Hand Applicator possible) Pressure recommendation: Medium pressure	

Recommended Usage

- Clean surface thoroughly prior to polishing.
- Shake the bottle prior to use and apply the following quantity of the product onto the polishing pad.
 Recommendation for a 40cm x 40cm area:
 Pad with a diameter of 95mm: 3-4 pea-sized drops
 Pad with a diameter of 150mm: 5 pea-sized drops
 Pad with a diameter of 180mm: 6-7 pea-sized drops
- For removing scratches, sanding marks with fresh paint, washing and usage marks use Menzerna Medium Cut Foam Pad.
- Use either a rotary or an orbital polishing machine and use the cross-coating method.
 Apply medium, even pressure while polishing and extend the product with a constant medium machine speed.
- At first, the polish will seem a little milky and should be worked in until only a slightly transparent/oily film is visible.
- Once you have finished polishing, remove any residue with our Premium Microfiber cloth, without applying any pressure.
- Any signs of sanding marks and use have now been removed. For the removal of any holograms and an exceptionally glossy finish, now apply one of our Menzerna Finishes.
